

Client Centre is going mobile with the Intact Insurance App.

Over 70% of Canadians own a smartphone, changing the way they access information and services.

The Intact Insurance App supports you in providing your customers choice and convenience with on-demand access to their insurance information, while keeping you at the centre of servicing their needs.

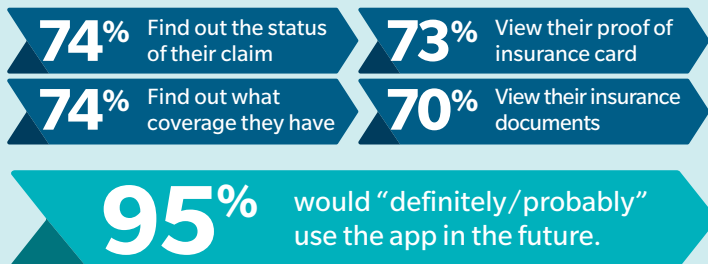

Choice & Convenience

The Intact Insurance App offers the same information and functionality as Client Centre, providing your Intact Insurance personal lines customers with secure online access to view their policy documents, billing statements, real-time claims status updates and the option to go paperless.

Intact Lab Research

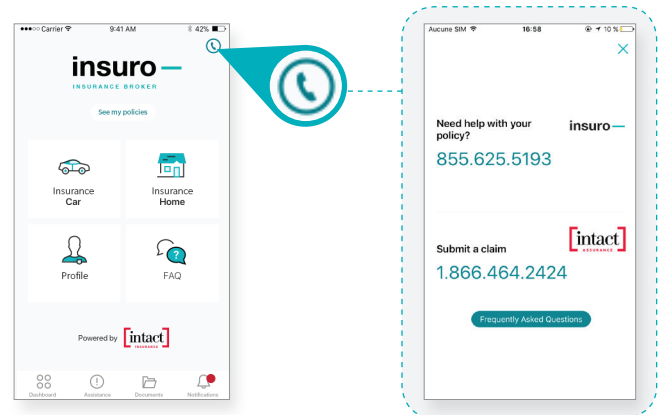

Customers are twice as engaged with the App – checking their open claims **8.1 times in the app vs 3.7 times on the website.**

Top reasons a customer would use the Intact Insurance App:

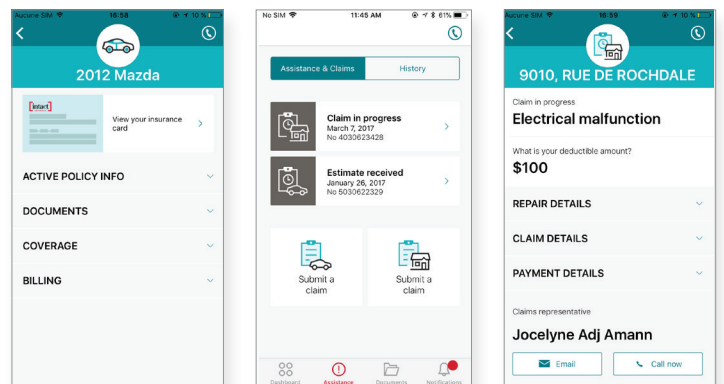

Your brokerage brand is front and centre

Co-branding makes it even easier for customers to connect with you, right from their smartphone!

Enhancing your customers' online experience

The Intact App is our first step in integrating mobile technology so customers can easily connect with you, have on-demand access to all their insurance information and open a claim, all in one place.

Future enhancements include the integration of our UBI program, **my Driving Discount**[®], streamlining our mobile platforms and making online access even easier for customers.
